

Safety 53 Wet Chemical Fire Extinguisher – 6L

Model No: WC-6L | Made in China

Specialized Protection for Cooking Oil & Grease Fires

The Safety 53 6L Wet Chemical Extinguisher is designed for Class F fires involving cooking oil and deep fryers—ideal for restaurants and commercial kitchens. Its potassium-based agent cools flames and forms a seal to prevent re-ignition. Also effective on Class A fires, corrosion-resistant steel body for long-lasting reliability and safety.

Specification	Details
Model	WC-6L
Extinguishing Agent	Potassium-Based Wet Chemical
Capacity	6 Liters
Fire Class Rating	Class F (cooking oils & fats), Class A (solids)
Operating Pressure	15–18 Bar
Discharge Time	Approx. 50–65 seconds
Effective Range	Covers a large cooking surface area
Cylinder Material	Corrosion-Resistant Steel
Valve Material	Squeeze Grip Control Valve
Mounting Type	Wall Bracket
Country of Origin	China
Cylinder Body	Made with Inner Coating

Applications

Commercial Kitchens & Restaurants
Essential for deep fryers and open cooking areas.

Hotels & Catering Facilities
Provides dependable protection for food prep zones.

Fast Food Chains & Cafeterias
Guards against oil and grease-related fire hazards.

Home Kitchens & Residential Use
Extra safety for heavy-duty cooking environments.

Key Features

- 6L Wet Chemical: For Class F (oil & grease) fires
- Anti Re-Ignition: Forms protective layer
- Multi-Class: Also for Class A fires
- Fast Cooling: Stops fire spread
- Long Discharge: Full coverage
- Durable Body: Corrosion-resistant
- Easy Control: Precision nozzle
- Ready Use: Pre-filled & pressurized

How to Use – PASS Method

P – Pull: Pull the safety pin to unlock the extinguisher.

A – Aim: Aim the nozzle at the base of the fire from a safe distance.

S – Squeeze: Squeeze the handle to release the extinguishing powder.

S – Sweep: Sweep from side to side until the fire is completely extinguished.

Why Choose Safety 53 Wet Chemical Fire Extinguishers

- Specialized for Kitchen Fires: Designed for Class F oil and fat fires.
- Prevents Re-Ignition: Forms a cooling chemical barrier over the oil surface.
- Extended Discharge Duration: Provides maximum control and coverage.
- Durable & Reliable Construction: Built with industrial-grade steel.

Safety & Maintenance

- Install near kitchen exits for quick accessibility.
- Do not use on electrical fires or flammable gas fires.
- Inspect pressure gauge and nozzle monthly.
- Ensure nozzle and hose remain free from grease or obstruction.
- After any use, recharge immediately by an authorized technician.
- Conduct annual professional inspection to maintain certification.

Product Summary

Feature	Description
Product Type	Portable Wet Chemical Fire Extinguisher
Brand	Safety 53
Use For	Class F (Cooking Oils) & Class A (Solids) Fires
Status	Fully Pressurized & Ready to Use
Mounting Option	Wall Bracket Included

Ensure Maximum Kitchen Fire Safety

The Safety 53 Wet Chemical Fire Extinguisher (6L) is the ultimate fire protection tool for restaurants, hotels, and food production areas. Its fast-cooling action and anti-reignition barrier make it the most effective defense against dangerous cooking oil fires.

Stay protected — safeguard your kitchen with Safety 53 Wet Chemical technology.
